Dust extraction system

Filter cleaning mechanism

by turning the dial, the dust falls

Transparent dust case for easy checking of collected

dust amount

 Dust case cover easy to open / close with a single operation of a

of dust case

locking tab · Wide opening of dust

Easy disposal of dust and easy cleaning

Dust case body is equipped with a fan for dust collection.

Accessories

Dust case set

Drill chuck set

Carrying Case

for HR3012FC

Part No.

191F46-4

for DX11 / DX10

Part No. 191F49-8

Dust cup set

for HR3011FC / HR3001C Part No. 195173-3

Tool holder set

for HR3012FC

Dust cup

Part No. Bit dia: 14.5mm 421342-3 Bit dia: 12-16mm 421664-1

Spacer set

for HR3011FC / HR3001C

Part No. 191L91-5

Excellent Drilling Efficiency **Superior drilling efficiency** The impact energy is drastically increased from that of Predecessor model by redesigned hammering mechanism.

Dust extraction system

for HR3012FC

Less bit wobbling

Reversing switch

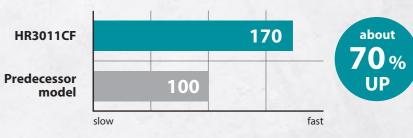

Work speed

- Drilled holes to a depth of 60mm (2-3/8")
- Concrete with compressive strength of 40N/mm² / diameter: ø16.0mm (5/8")

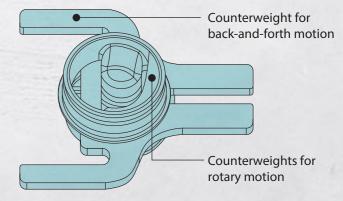

A 50m cable reel was used as extension power supply cord.

Anti Vibration Technology HR3012FC / HR3011FC

HR3011FC and HR3012FC are equipped with the following two different counterweights:

- Counterweight to cancel the back-and-forth vibration caused by hammering
- Counterweight to cancel the vibration caused by imbalanced rotation of crankshaft

Anti-vibration side grip HR3012FC / HR3011FC absorbs excess vibration beyond the canceling capacity of the two counterweights.

Anti-vibration rear handle

Vibration absorbing performance is increased by two cushion rings added to connecting parts.
