eXtreme Protection Technology

New chip receiver (option)

can make it easier for user to collect leaf and twig debris, thanks to:

- Lower height of the connecting levers
- Reduced step height of the edge of the chip catching plate

Highly durable crank mechanism

Increased crank wall thickness can:

- reduce the chance of falling off of the blade from the crank.
- increase the contact area between the crank and blade, reducing wear of the crank.

Redesigned switch lever easy-to-press

can be pressed without gripping the front handle deep in your palm, allowing for easy on/off control.
