Plastic Cutting Deck

allows for lightweight design to increase maneuverability in turns, preparation, storage and more.

Easier cutting height adjustment

- Easy-to-grip egg-shaped lever.
- Positioning grooves for the lever can be visually confirmed.

Grass catcher with grass level indicator

Handle height adjustment

Each side of the handle can be locked/unlocked with just a single action without tool.

Large tires
enlarge the ground contact area to sustain higher performance in running over muddy or bumpy yard.

Higher mowing performance

The blade is designed so that it tilts towards the front side of the mower when attached, preventing double-cutting for reduced current consumption.

Optimum blade design for less rotational speed reduction of the blade

Improved grass collection efficiency

achieved by re-designing the inside of the deck to a streamlined shape

Water-resistant cutting deck

The inside is washable; however, self-propelled unit should be kept dry.

Self-propelled type (with suction power control)

DML539 / DLM481 only

• On/off switch lever for self-propelled function

• Self-propelled speed: 2.5-5.0km/h

Vertical storage

Compact storage of grass catcher allows for space-saving vertical storage

XPT

IPX4-rated water-resistance

Continuous run time on full battery charge (BL1860B x2)
